2. In the last few months it has been harder and harder to misinterpret the signs	b. already inhabited by people with different cultures, religions and tradition increasing the potential for conflict
3. Major cities in the South and North America, Asia and Australia	c. on which we depend is being ripped and fray.
4. Peoples in the frozen Arctic and low-lying Pacific islands are planning	d. is, in their words, "falling off the cliff."
5. Climate refugees have migrated into areas	e. that our world is spinning out of kilter
6. We are recklessly burning and clearing our forests and driving	f. evacuations off places they have long called home
7. The very wealth of life	g. in his words "...we are evaporating our coal mines into the air
8. We never intended to cause all this	h. more and more species into extinction

destruction	
9. . One of the very first winners of the prize in chemistry worried that.”	i. whole societies can at least for a time ignore them
10. Yet as George Orwell reminds us	j. just as Alfred Nobel never intended that dynamite be used for waging war
11. When large truths are genuinely inconvenient	k. can throw so much debris and smoke into the air it could block life-giving sunlight from our atmosphere causing a nuclear winter.
12. Now we and the Earth climate are locked in the relationships familiar to the war planners –.	l. “Sooner or later a false belief bumps up against a solid reality, usually on a battlefield”
13. . More than two decades ago scientists calculated that nuclear war	m. mutually assured destruction
14. Now scientists are warning us that if we do not quickly reduce the global warming pollution that is trapping so much of the heat our planet normally radiates back out of the atmosphere	n. :”Some say the world will end in fire, some say in ice; either, he notes, would suffice.” t
15. .. As the American poet Robert Frost wrote	o. to make peace with the plane
16. It is time.	p. we are in danger of creating a permanent carbon summer

Модуль 6

Unit 6 Al Gore's interview to the BBC program HARDtalk.

Final Test

Match A to B

A	B
1. Your film "An inconvenient truth" is clearly setting out to convince the people around the world	a. that there were "elements of alarmism and exaggeration."
2. 2500 scientists at the top of their fields all around the world	b. are not in any trouble at all, and doing perfectly fine,
3. The judge after the deliberation said	c. that it is indeed the truth and just take one more important point, than perhaps the polar bears.
4. Out of the thousands of facts in the film	d. have now issued 4 unanimous reports.
5. The polar bears	e. the Greenland ice shelf or the Western Antarctic ice shelf are melting away and that it could happen in the near future.
6. It is plainly incumbent upon you to	f. he raised questions about a few.

make sure	
7. You refer in your film to the real prospect that	g. were so extreme as to make it impossible for the computer models to incorporate them
8. You paint a picture including graphic images of Manhattan	h. that we are facing a planetary emergency.
9. When the scientists last studied this in the full report they decided that the changes under way in Greenland and Western Antarctica	i. so we are going to give equal time to these two cases
10. And the IPCC says quite plainly that on the scenarios they are currently running	j. being potentially inundated with water
11. In trying to make the case.	k. up 6 meters worldwide
12. Sea levels would go	l. sea rise is not going to go beyond 1.4 meters before the end of the century.
13. At this point of time we really cannot	m. , you exaggerate and lose credibility

<p>14. All news media has the responsibility not</p>	<p>n. what I question is the way in which people like Al Gore present the problem</p>
<p>15. On the one hand most scientists who say the Earth is round, but on the other hand, a few say that it's flat,</p>	<p>o. to fall into the trap of these ideological opponents of taking action</p>
<p>16. I do not doubt there is a genuine problem of climate change, and I don't doubt that it is man-made,</p>	<p>p. place an upper bound on sea level rise</p>
<p>17. Forgive me</p>	<p>q. let me just continue the thought</p>
