Reviews

Analytics and control of quality and safety of construction materials
O.B. Rudakov, E.A. Khorokhordina, E.N. Groshev, A.M. Khorokhordin ........................................... 254

Spectral determination of phosphorus using its electro thermal vaporization and atomization with various
chemical modifiers (Review)
Alexander A. Pupyshev, Polina V. Zaitceva, Maria V. Zaitceva ..................................................... 266

Devices and Methods of Control

A method of reducing the limits of detection of non-metallic inclusions in metal alloys during their
determination by spark optical emission spectroscopy
D.N. Bock, V.A. Labusov .......................................................................................... 286

Dating of zircons using NexION 300S quadrupole mass spectrometer with inductively coupled plasma
and NWR 213 attachment for laser ablation
Maria V. Zaitceva, Alexander A. Pupyshev, Julia V. Shchapova, Sergey L. Votyakov ......................... 294

The restrictions on the gas chromatographic separation of the compounds with active hydrogen atoms.
Dialkyl phosphates
Igor G. Zenkevich, Vlada E. Nosova ................................................................................................. 307

GC and HPLC methods’ effectiveness comparison for the differentiation of seed oils containing moieties of
the isomeric octadecatrienoic acids
Victor I. Deineka, Alexander V. Turtygin, Liudmila A. Deineka .............................................................. 314

Spectrophotometric assessment of ferric reducing power of the instant coffee
T.G. Tsiupko, E.A. Tishchenko, O.B. Voronova .................................................................................. 320

The determination of copper(II) using neocuproine immobilized in a polymethacrylate matrix
N.A. Gavrilenko, N.V. Saranchina, M.A. Gavrilenko ........................................................................... 330

Development of an organoleptic method to control the crushing ratio of gold-bearing ores laboratory
samples
O.A. Belavina, V.A. Shvetsov, V.V. Pakhomova, D.V. Shun’kin ............................................................. 337

Development of the technique of the XRF determination of the Ga, Hf, and Ta contents in rare-earth ores
D.S. Suvorova, E.V. Khudonogova, A.G. Revenko .............................................................................. 344
