

CONTENTS

Berdnikova E. A. An estimate of the convergence rate for the sequel projecting method applied to the intersection of two linear manifolds and some generalizations.....	5
Vernikov B. M. Semimodular and arguesian semigroup varieties: forbidden subvarieties..	16
Volkov M. V. Semimodular and arguesian semigroup varieties: identities.....	43
Dolgii Yu. F., Kukushkina E. V. Representations of solutions of functional-difference equations.....	62
Korobkov S. S. Lattice isomorphisms of finite reduced rings.....	81
Korotkii A.I., Tsepelev I.A., Ismail-Zadeh A.T., Naimark B.M. Three-dimensional backward modeling in problems of Rayleigh–Taylor instability.....	94
Lysenko A. V. A digital watermarking algorithm based on the wavelet-transform.....	103
Onegova O. V. Some numerical methods for solving boundary value problems for functional-differential equations.....	114
Patsko S. V. Fejer methods for solving infinite systems of convex inequalities.....	129
Popov L. D. Calculation of the Tschebyshev quasi-solution for the linear complementarity problem with an inconsistent constraint system.....	148
Sazanova L. A. Stability of the optimal synthesis in linear discrete systems under the feedback channel lag.....	161
Struzhanov V. V., Krakhmalnik G. L. On one inverse problem in the theory of unelastic bending.....	175

Scientific life

Arestov V. V., Vasin V. V. The All-Russian conference «Algorithmic analysis of unstable problems».....	183
Kondratjev A. S., Makhnev A. A. The international seminar on group theory dedicated to A. I. Starostin's 70th birthday and N. F. Sesekin's 80th birthday.....	185
Meetings of the seminar «Algebraic systems».....	188

ИЗВЕСТИЯ УРАЛЬСКОГО ГОСУДАРСТВЕННОГО УНИВЕРСИТЕТА 2002. №22

Математика и механика. Вып. 4

Редактор Т. А. Сасина

Компьютерная верстка М. В. Волкова, А. А. Финогенова

Подписано в печать 27.12.2002. Формат 70 × 100¹/₁₆.

Бумага офсетная. Печать офсетная.

Усл. печ. л. 16,4. Уч.-изд.-л. 14,0. Тираж 300 экз. Заказ 381.

Свидетельство о регистрации ПИ №11-1055 от 22.03.02.

Учредитель — Государственное образовательное учреждение
«Уральский государственный университет им. А. М. Горького».

620083, г. Екатеринбург, пр. Ленина, 51.

Отпечатано в ИПЦ «Издательство УрГУ».

620083, г. Екатеринбург, ул. Тургенева, 4.
