================================ **ERRATA** ================================

Erratum to: Several Articles in Doklady Mathematics

The articles listed below were originally published electronically in Springer-Link without Open Access. After publication, the authors decided to make the articles an Open Access publication.

An Inverse Problem for a Semilinear Wave Equation

Corresponding Member of the RAS V. G. Romanov*

Sobolev Institute of Mathematics, Siberian Branch, Russian Academy of Sciences, Novosibirsk, Russia
*e-mail: romanov@math.nsc.ru
Received February 7, 2022; revised March 10, 2022; accepted March 20, 2022

On Derivation of Equations of Electrodynamics and Gravitation from the Principle of Least Action, the Hamilton–Jacobi Method, and Cosmological Solutions

V. V. Vedenyapin*

Federal Research Center Keldysh Institute of Applied Mathematics, Russian Academy of Sciences, Moscow, Russia
*e-mail: vicveden@yahoo.com
Presented by Academician of the RAS V.V. Kozlov

Received January 27, 2022; revised March 29, 2022; accepted April 12, 2022

Solving Nonlinear Inverse Problems Based on the Regularized Modified Gauss–Newton Method

Corresponding Member of the RAS V. V. Vasin[a,b,*]

[a]*Krasovskii Institute of Mathematics and Mechanics, Ural Branch, Russian Academy of Sciences, Yekaterinburg, Russia*
[b]*Ural Federal University, Yekaterinburg, Russia*
*e-mail: vasin@imm.uran.ru
Received January 11, 2022; revised March 28, 2022; accepted April 1, 2022

On Convergence of Finite-Difference Shock-Capturing Schemes in Regions of Shock Waves Influence

O. A. Kovyrkina[a,b,*], V. V. Ostapenko[a,b, **], and Corresponding Member of the RAS V. F. Tishkin[c,***]

[a]*Lavrentyev Institute of Hydrodynamics, Siberian Branch, Russian Academy of Science, Novosibirsk, Russia*
[b]*Novosibirsk State University, Novosibirsk, Russia*
[c]*Federal Research Center Keldysh Institute of Applied Mathematics, Russian Academy of Science, Moscow, Russia*
*e-mail: olyana@ngs.ru
**e-mail: ostapenko_vv@ngs.ru
***e-mail: v.f.tishkin@mail.ru
Received October 4, 2021; revised January 24, 2022; accepted March 28, 2022

On the Extremum Control Problem with Pointwise Observation for a Parabolic Equation

I. V. Astashova[a,b,*], D. A. Lashin[c,**], and A. V. Filinovskiy[d,a,***]

[a]*Faculty of Mechanics and Mathematics, Lomonosov Moscow State University, Moscow, Russia*
[b]*Plekhanov Russian University of Economics, Moscow, Russia*
[c]*"FITO" Scientific Production Company, Moskovskii, Moscow oblast, Russia*
[d]*Bauman Moscow State Technical University, Moscow, Russia*
*e-mail: ast.diffiety@gmail.com
**e-mail: dalashin@gmail.com
***e-mail: flnv@yandex.ru
Presented by Academician of the RAS V.V. Kozlov

Received December 1, 2021; revised December 10, 2021; accepted March 14, 2022

OPEN ACCESS
