

Ural Radio Engineering Journal**2019, Vol. 3, No. 1****CONTENTS**

| | |
|---|----|
| <i>Noskov V. Ya., Smolskiy S. M., Ignatkov K. A., Chupahin A. P.</i> Calculation of autodyne parameters with the rigid characteristic of the active element conductance | 7 |
| | |
| <i>Malygin I. V., Karamyshev A. S., Blinov S. S.</i> The development of automatic expandable microwave antennas for CubeSat satellites | 30 |
| | |
| <i>Nitsak D. A.</i> Application of the subtract processing of polarimetric SAR signals for low in contrast distributed objects selection | 43 |
| | |
| <i>Evseev V. I., Lupanova E. A., Malyshev I. N., Nikulin S. M.,</i> <i>Petrov V. V.</i> Control of objects parameters in non-standard guiding systems and in free space | 53 |
| | |
| <i>Mironov E. G., Orduyants G. Zh.</i> New approach to dynamic measurement errors | 72 |
| | |
| <i>Publication Requirements for Articles Submitted</i> <i>to Ural Radio Engineering Journal</i> | 83 |
| | |
| <i>Publication Ethics</i> | 89 |
| | |
| <i>Article Submission Guidelines</i> | 97 |
