Chief Academic Editor Name: Professor, doctor of technical sciences Artemy. A. Popov

Signature: _____

Knowledge E Publication Ethics and Publication Malpractice Statement

Knowledge E makes every effort to ensure high quality scholarship in all published articles and conference papers on the KnE Publishing Platform. The platform exists in order to share best practices and accelerate the advance of academic research from regions all over the world. In order to achieve this goal, we need to instill confidence in our readers.

Peer Review

Each conference whose content is published on the KnE Publishing Platform has undergone academic peer review prior to submission. Knowledge E checks each submitted paper against a set of criteria to ensure adherence to aims & scope, prevent ethical or legal concerns before agreeing to publish.

Plagiarism

Knowledge E verifies the originality of every submitted conference paper submitted using Similarity Check <https://www.crossref.org/services/similarity-check/> (powered by iThenticate) to check submissions against previous publications. There is no strict limit or proportion of plagiarized content acceptable however, in cases where manuscripts are submitted for publishing on the KnE Publishing Platform in which the Similarity Check detects more than 20% similarity then Knowledge E editorial staff ask the academic editor for an explanation and a suitable solution is found. The solution is usually either a re-submission or removal of the paper.

Committee on Publication Ethics (COPE)

Knowledge E adheres the policies of the Committee on Publication Ethics (COPE, <https://publicationethics.org/>), which is a charity registered in the UK. It is concerned with the integrity of peer-reviewed publications in science, particularly biomedicine.

International Committee of Medical Journal Editors (ICMJE)

Where relevant, Knowledge E adheres to the policies of the International Committee of Medical Journal Editors (ICMJE), including those that cover overlapping publications.
